Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-15 are allowable over the prior art of record because none of the prior art of record taken alone or in combination thereof shows or fairly suggests the claimed subject matter. Specifically, the first and second limiting notches defined in the periphery of the through hole of the blade cooperating with the first and second long holes of the top and bottom covers for receiving a spring driven positioning rod such that when the blade is fully extended relative to the handle and the first limiting notch is in communication with the first and second long holes, the positioning rod is received in the first limiting notch to fix the blade relative to the handle, and when the blade is received in the handle and the second limiting notch is in communication with the first and second long holes, the positioning rod is received in the second limiting notch to fix the blade relative to the handle is not shown or made obvious by the prior art of record of any combination thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Henry, Poehlmann '887, '409 and 035, Taylor, Jr., Vallotton and McHenry et al. are cited as art of interest.
